Proper Citation: University of Ottawa Louise Pelletier Histology Core Facility (RRID:SCR_021737)

Description: Core is full service histology laboratory available to faculty, researchers, clinicians and students. Provides histological services for both animal and human tissue. Services include paraffin processing and embedding, paraffin and frozen sectioning as well as routine and special histological staining. Equipment includes: Leica Bond III Immunostainer to provide automated immunohistochemistry, in-situ hybridization and immunofluorescence staining; Automated tissue processors for paraffin processing; Automated microtomes for paraffin sectioning; Automated stainer that can be programmed to provide wide variety of routine and special stains; Cryostats for sectioning frozen tissue; Tissue Microarray machine. LPHCF can also perform manual chromogenic or fluorescent staining (single or multi-color labelling) on frozen and paraffin sections. We also provide full service slide scanning using Axio Scan.Z1 for Brightfield or Fluorescent stained slides at either 20X or 40X magnification. Personnel in the LPHCF are available for consultation on project/protocol design, technical assistance and training on facility instruments. Infinity software system is used for all of our histological services and instrument training.

Abbreviations: HCF

Synonyms: Louise Pelletier Histology Core Facility

Resource Type: access service resource, service resource, core facility

Keywords: USEdit, ABRF, histological services, animal tissue, human tissue

Resource Name: University of Ottawa Louise Pelletier Histology Core Facility

Resource ID: SCR_021737

Alternate IDs: ABRF_1211

Alternate URLs: <https://coremarketplace.org/?FacilityID=1211>

Record Creation Time: 20220129T080357+0000

Record Last Update: 20260729T044520+0000

Ratings and Alerts

No rating or validation information has been found for University of Ottawa Louise Pelletier Histology Core Facility.

No alerts have been found for University of Ottawa Louise Pelletier Histology Core Facility.
