Description: Software tool for constructing and visualizing bibliometric networks. These networks may for instance include journals, researchers, or individual publications, and they can be constructed based on citation, bibliographic coupling, co-citation, or co-authorship relations. Offers text mining functionality that can be used to construct and visualize co-occurrence networks of important terms extracted from body of scientific literature.

Synonyms: VOSviewer version 1.6.19

Resource Type: software resource, software application

Defining Citation: [PMID:36589296](#)

Keywords: constructing and visualizing bibliometric networks, text mining functionality, co-occurrence networks,

Availability: Free, Available for download, Freely available

Resource Name: VOSviewer

Resource ID: SCR_023516
