### Resource Information

**URL:** <http://www.proteontherapeutics.com/>

**Proper Citation:** Proteon Therapeutics (RRID:SCR\_004037)

**Description:** A biopharmaceutical company developing pharmaceuticals for patients with renal and vascular diseases. Their ongoing Phase 3 clinical trial is evaluating whether a single treatment of PRT-201 can reduce vascular access failure, one of the most serious problems experienced by patients with chronic kidney disease (CKD) undergoing hemodialysis. PRT-201 is an investigational drug that may inhibit neointimal hyperplasia, the growth of tissue inside blood vessels that can result in vessel narrowing and reduced blood flow. PRT-201 has received fast track and orphan drug designations for hemodialysis vascular access indications. In September 2019, Proteon Therapeutics merged with ArTara Therapeutics.

**Abbreviations:** Proteon

**Synonyms:** Proteon Therapeutics Inc.

**Resource Type:** commercial organization

**Keywords:** biopharmaceutical, pharmaceutical, hemodialysis, prt-201, drug

**Related Condition:** Kidney disease, Vascular disease, Chronic kidney disease, Neointimal hyperplasia, Peripheral arterial disease

**Resource Name:** Proteon Therapeutics

**Resource ID:** SCR\_004037

**Alternate IDs:** nlx\_158465

**Record Creation Time:** 20220129T080222+0000

**Record Last Update:** 20260903T234654+0000
