**Proper Citation:** Comprehensive Perl Archive Network (RRID:SCR\_007253)

**Description:** Welcome to CPAN, where you you will find All Things Perl. CPAN is the Comprehensive Perl Archive Network, a large collection of Perl software and documentation. You can begin exploring from either <http://www.cpan.org/>, <http://www.perl.com/CPAN/> or any of the mirrors listed at <http://www.cpan.org/SITES.html>. Note that CPAN is also the name of a Perl module, CPAN.pm, which is used to download and install Perl software from the CPAN archive. This FAQ covers only a little about the CPAN module and you may find the documentation for it by using perldoc CPAN via the command line or on the web at <http://search.cpan.org/dist/CPAN/lib/CPAN.pm>. Sponsors: CPAN works with the generosity and cooperation of hundreds of developers, over 100 participating mirrors, funet.fi donating the network bandwidth, storage space and computing power, volunteers who help keep everything together and users whose interest in Perl keep the archive alive and growing. Keywords: Comprehension, Perl, Archive, Software, Documentation,
