Bahler Laboratory: Genome Regulation

RRID:SCR_008422

Type: Tool

Proper Citation

Bahler Laboratory: Genome Regulation (RRID:SCR_008422)

Resource Information

URL: http://www.sanger.ac.uk/PostGenomics/S_pombe/

Proper Citation: Bahler Laboratory: Genome Regulation (RRID:SCR_008422)

Description: The laboratory studies global gene expression programs in fission yeast (*S. pombe*). They apply a wide range of integrated approaches to analyse regulatory networks during cell proliferation, differentiation and quiescence including genetic and environmental perturbations. They are also interested in genetic diversity, genome evolution, and the complex interactions between genotypes, phenotypes, and the environment. The relative simplicity of the yeast cell promises a deeply satisfying, systems-level understanding of its inner workings within our life time Sponsors: This research is mainly funded by Cancer Research UK and the EC FP7 PhenOxiGEN project. Keywords: Gene, Expression, *S.pombe*, Yeast, Cell, Proliferation, Differentiation, Environmental, Genetic, Diversity, Genome, Evolution, Genotype, Phenotype, Environment,

Abbreviations: BahlerLab

Synonyms: The Bahler Laboratory: Genome Regulation

Resource Type: data or information resource, laboratory portal, organization portal, portal

Resource Name: Bahler Laboratory: Genome Regulation

Resource ID: SCR_008422

Alternate IDs: nif-0000-30160

Record Creation Time: 20220129T080247+0000

Record Last Update: 20260903T234932+0000

Ratings and Alerts

No rating or validation information has been found for Bahler Laboratory: Genome Regulation.

No alerts have been found for Bahler Laboratory: Genome Regulation.
