Baylor College of Medicine RNA In Situ Hybridization Core Facility

RRID:SCR_017856
Type: Tool

Proper Citation

Baylor College of Medicine RNA In Situ Hybridization Core Facility (RRID:SCR_017856)

Resource Information

URL: https://www.bcm.edu/research/advanced-technology-core-labs/lab-listing/rna-in-situ-hybridization

Proper Citation: Baylor College of Medicine RNA In Situ Hybridization Core Facility (RRID:SCR_017856)

Description: Core performs non-radioactive, RNA in situ hybridization (ISH) on tissue sections. Provides services including: collecting animal tissue specimens, preparation of frozen and paraffin sections, preparation of RNA probes from customer templates, conducting high-throughput ISH, and documentation and quantification of expression patterns by microscopy. We also do X-gal and Cresyl Violet staining on sections. For human studies, customers must provide tissue sections.

Synonyms: RNA In Situ Hybridization

Resource Type: access service resource, core facility, service resource

Keywords: RNA, in situ, hybridization, non radioactive, tissue, selection, collection, animal, speciment, preparation, frozen, paraffin, RNA, probe, custom, template, high, throughput, ISH, exrpession, pattern, documentation, microscopy, X-gal, Crystal Violet, staining, section, service, core
