AV112

RRID:WB-STRAIN:WBStrain00000278

Type: Organism

Proper Citation

RRID:WB-STRAIN:WBStrain00000278

Organism Information

URL: <http://www.wormbase.org/db/get?name=WBStrain00000278>

Proper Citation: RRID:WB-STRAIN:WBStrain00000278

Description: Caenorhabditis elegans with name mre-11(ok179) IV/nT1 [unc-?(n754) let-?] (IV;V). from WB.

Species: Caenorhabditis elegans

Synonyms: mre-11(ok179) IV/nT1 [unc-?(n754) let-?] (IV;V).

Notes: Heterozygotes are Unc and segregate Uncs (heterozygotes), non-Unc mre-11 homozygotes, and dead eggs (nT1 homozygotes). mre-11 homozygotes produce about 200 fertilized eggs but only about 2-3% of these eggs survive to adulthood (this mutation cannot be maintained in a homozygous condition). Occasionally non-Unc progeny that do not demonstrate the mre-11(ok179) mutant phenotype arise when grown in large liquid cultures. mre-11 is the predicted gene ZC302.1|"Made_by: Deletion Consortium"

Affected Gene: WBGene00003405(mre-11)

Genomic Alteration: WBGene00003405(mre-11)

Catalog Number: WB-STRAIN:WBStrain00000278

Database: WormBase (WB)

Database Abbreviation: WB

Availability: available

Alternate IDs: WB-STRAIN:AV112, CGC_AV112

Organism Name: AV112

Record Creation Time: 20230227T013220+0000

Record Last Update: 20260919T175941+0000

Ratings and Alerts

No rating or validation information has been found for AV112.

No alerts have been found for AV112.
