PKC beta I dNPS

RRID:Addgene_16379

Type: Plasmid

Proper Citation

RRID:Addgene_16379

Plasmid Information

URL: <http://www.addgene.org/16379>

Proper Citation: RRID:Addgene_16379

Insert Name: PKC beta 1

Organism: Rattus norvegicus

Bacterial Resistance: Ampicillin

Defining Citation: [PMID:12794082](#)

Vector Backbone Description: Backbone Size:5400; Vector Backbone:pHACE; Vector Types:Mammalian Expression; Bacterial Resistance:Ampicillin

Comments: From user-provided sequence (see 'Reviews'), there are five amino acid differences from one of two NCBI reference sequences (AAA41868.1 and NP_001165776.1): 25A, 62F, 64K, 69C, and 294G. These "mutations" are also present in human, bovine, and xenopus sequences. An additional C-terminal mutation, H579Y, is present. These mutations are not believed to affect function.

Plasmid Name: PKC beta I dNPS

Relevant Mutation: N-terminal pseudosubstrate domain deletion: aa 30-671

Record Creation Time: 20220422T221926+0000

Record Last Update: 20260905T075109+0000

Ratings and Alerts

No rating or validation information has been found for PKC beta I dNPS.

No alerts have been found for PKC beta I dNPS.
