Proper Citation: Pharmaceuticals and Medical Devices Agency (RRID:SCR_000244)

Description: A Japanese regulatory government agency which regulates the safety, efficacy and quality of pharmaceuticals and medical devices in order to protect the public health of the people. The agency plays three main roles: drug and medical device testing, post-marketing drug safety, and victim compensation for those affected by adverse drug reactions from pharmaceuticals or other biological products. It is an incorporated administrative agency with non-civil service status.
