Proper Citation: Antilope Project (RRID:SCR_003829)

Description: Consortium focused on making electronic health data more interoperable, both within and outside of Europe, with the intention to create, validate, and disseminate standard methods to test and certify electronic health solutions and services. In particular it will: Drive the adoption of recognized sets of profiles and underlying standards for eHealth interoperability, and improve the impact of the EU and International eHealth standards development process; Define and validate testing guidelines and common approaches on Interoperability Labelling and Certification processes at European and at National / Regional level. Four work packages were created to provide guidelines, recommendations and frameworks based on a set of use cases, related profiles and standards, Interoperability Quality Management System, testing guidelines and Certification process. All the deliverables will be presented for validation and promotion by organizing workshops across Europe.

Abbreviations: Antilope

Resource Type: organization portal, standard specification, portal, consortium, narrative resource, data or information resource

Keywords: consortium, interoperability, electronic health data, data sharing, testing, certification, ehealth

Funding: European Union FP7 325077

Resource Name: Antilope Project

Resource ID: SCR_003829

Alternate IDs: nlx_158143

Record Creation Time: 20220129T080221+0000

Record Last Update: 20260728T043152+0000
