Proper Citation: Washington University in St. Louis Neuroscience (RRID:SCR_007544)

Description: The Neuroscience PhD Program at Washington University in St. Louis aims to train the next generation of leaders in neurobiology. The main objectives of the program are to: Provide students with the skills necessary to conduct research including the planning and implementation of a unique research project in the field of neuroscience. Teach students the fundamental concepts within neuroscience and how to apply those concepts in the critical analysis of scientific research. Promote the professional development of students in the areas of scientific writing and oral presentation. Promote interdisciplinary science by encouraging cooperation and collaboration among students in different programs and departments.
