MERLIN

RRID:SCR_009289

Type: Tool

Proper Citation

MERLIN (RRID:SCR_009289)

Resource Information

URL: <http://www.sph.umich.edu/csg/abecasis/Merlin>

Proper Citation: MERLIN (RRID:SCR_009289)

Description: Software application that carries out single-point and multipoint analyses of pedigree data, including IBD and kinship calculations, nonparametric and variance component linkage analyses, error detection and information content mapping. For multipoint analyses in dense maps, Merlin allows the user to impose constraints on the number of recombinants between consecutive markers. Merlin estimates haplotypes by finding the most likely path of gene flow or by sampling paths of gene flow at all markers jointly. It can also list all possible nonrecombinant haplotypes within short regions. Finally, Merlin provides swap-file support for handling very large numbers of markers as well as gene-dropping simulations for estimating empirical significance levels. (entry from Genetic Analysis Software)

Abbreviations: MERLIN

Synonyms: Multipoint Engine for Rapid Likelihood INference

Resource Type: software application, software resource

Keywords: gene, genetic, genomic, c++, unix. linux

Resource Name: MERLIN

Resource ID: SCR_009289

Alternate IDs: nlx_154475

Record Creation Time: 20220129T080252+0000

Record Last Update: 20260727T040457+0000

Ratings and Alerts

No rating or validation information has been found for MERLIN.

No alerts have been found for MERLIN.
