Proper Citation: Weill Cornell Medical College Microscopy and Image Analysis Core Facility (RRID:SCR_017693)

Description: Core assist users with all their microscopic imaging needs, from the conception of idea, to final image analysis and presentation. Offers regular widefield microscopes for fluorescence and brightfield imaging, laser scanning microscopes (confocal and multiphoton), super-high resolution microscope (Zeiss Airyscan), automated high content optical microscopy, and electron microscopy. Provides access to several image analysis software packages, and image analysis workstations that are optimized for handling large amounts of imaging data. Available software include MetaMorph, MetaXpress and Imaris, Fiji/ImageJ.
