Proper Citation: PRACSIS - Prognosis and Risk in Acute Coronary Syndromes In Sweden (RRID:SCR_000615)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented August 23, 2016. PRACSIS (Prognosis and Risk in Acute Coronary Syndromes In Sweden) aims to study prognosis and its predictors in a consecutive series of patients with acute coronary syndrome (ACS). The study is comprised of patients between 18 and 80 years diagnosed at the coronary care unit at the Sahlgrenska University Hospital with unstable angina, non-ST-elevation MI or ST-elevation MI. Extensive information on medical history and blood samples for analyses of biochemical markers and genetic factors have been collected.

Abbreviations: PRACSIS

Synonyms: PRACSIS - Prognosis Risk in Acute Coronary Syndromes In Sweden, Prognosis and Risk in Acute Coronary Syndromes In Sweden, KI Biobank - PRACSIS

Resource Type: biomaterial supply resource, material resource

Keywords: cardiac disease, predictor, prognosis, medical history, biochemical marker, genetic factor, biomarker, gene, genetics, adult

Related Condition: Acute coronary syndrome

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: PRACSIS - Prognosis and Risk in Acute Coronary Syndromes In Sweden

Resource ID: SCR_000615
