Solas

RRID:SCR_003168

Type: Tool

Proper Citation

Solas (RRID:SCR_003168)

Resource Information

URL: <http://cmb.molgen.mpg.de/2ndGenerationSequencing/Solas/>

Proper Citation: Solas (RRID:SCR_003168)

Description: Software package for the statistical language R, devoted to the analysis of next generation short read data of RNA-seq transcripts. It provides predictions of alternative exons in a single condition/cell sample, predictions of differential alternative exons between two conditions/cell samples, and quantification of alternative splice forms in a single condition/cell sample.

Resource Type: source code, data processing software, software resource, data analysis software, sequence analysis software, software application

Keywords: r statistical package, rna seq, exon prediction, exon splicing, bio.tools

Availability: Free, Available for download, Freely available

Resource Name: Solas

Resource ID: SCR_003168

Alternate IDs: biotools:solas, OMICS_01339

Alternate URLs: <https://bio.tools/solas>

Record Creation Time: 20220129T080217+0000

Record Last Update: 20260818T043157+0000

Ratings and Alerts

No rating or validation information has been found for Solas.

No alerts have been found for Solas.
