Proper Citation: COMPACT (RRID:SCR_003850)

Description: Consortium to reduce delivery and targeting bottlenecks for developing novel innovative biopharmaceutical based medicines. The project aims to shed new light on the obstacles biopharmaceuticals (medicines based on biological molecules such as proteins, peptides or nucleic acids) need to overcome to get to where they are needed in the body. The team will then use this information to develop and validate biopharmaceutical formulations to deliver these novel drugs to their targets. By finding more effective ways of administering these biopharmaceutical drugs, and improving their ability to travel through the body to where they are needed, COMPACT will allow more patients to benefit from biopharmaceuticals. Furthermore, designing less invasive administration routes and reducing the dose (and therefore the side effects) and frequency of administration will help to improve patient compliance with treatments.

Abbreviations: COMPACT

Synonyms: Collaboration on the optimisation of macromolecular pharmaceutical access to cellular targets, Collaboration on the Optimization of Macromolecular Pharmaceutical Access to Cellular Targets

Resource Type: consortium, data or information resource, organization portal, portal

Keywords: drug, biopharmaceutical, drug delivery, drug target, drug development

Funding: Innovative Medicines Initiative ;
EFPIA

Resource Name: COMPACT

Resource ID: SCR_003850

Alternate IDs: nlx_158164

Record Creation Time: 20220129T080221+0000

Record Last Update: 20260919T195027+0000

Ratings and Alerts

No rating or validation information has been found for COMPACT.

No alerts have been found for COMPACT.
