Proper Citation: Mid-America Transplant Services (RRID:SCR_004400)

Description: For 35 years, Mid-America Transplant Services (MTS) has served as the regional organ and tissue procurement organization for eastern Missouri, southern Illinois, and northeast Arkansas, serving 4.3 million people in 84 counties. From our founding goal to assist in the coordination of kidney donations, we have grown to become a multi-faceted organization dedicated to saving lives and enhancing the quality of all donated organs and tissues currently available for transplant. MTS's primary service offering is to facilitate and coordinate the organ and tissue donation process. With a mission to save lives through excellence in organ and tissue donation, we have been at the forefront of enhancing the quality of organs and tissue for transplant. Throughout our history, we have relentlessly pursued our core values of compassion, quality, teamwork, and honesty to create a positive donation experience for Donor Families, which is at the heart of what matters most to MTS. Located in Saint Louis, Missouri, MTS is one of 58 federally designated organizations of its kind in the United States. Incorporated in the State of Missouri, MTS is a private, not-for-profit 501(c)(3). To fulfill our mission, we work closely with the four transplant centers and over 110 donor hospitals located within our service area.
