Proper Citation: University of British Columbia Department of Pharmacology (RRID:SCR_006466)

Description: University of British Columbia Department of Anesthesiology, Pharmacology and Therapeutics is an amalgamation of three very important areas of medicine: anesthesiology, pharmacology, and therapeutics. Although we are a joined department with many common interests, each of the sections named above, bring special areas of expertise and learning to the mix. We welcome your interest in our department and look forward to the recruitment of outstanding anesthesiology residents, pharmacology grad students, anesthesiology fellows, and pharmacology post-graduate students. Information on the residency program and postgraduate programs can be found on the appropriate link. Our department now extends across the Province of British Columbia.
