Proper Citation: Swami: The Next Generation Biology Workbench (RRID:SCR_007217)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented August 22, 2016. The Next Generation Biology Workbench is a free resource for research and education in Bioinformatics, Genomics, Proteomics, and Phylogenetics. The NGBW is a re-engineering of the Biology Workbench which was designed by Shankar Subramaniam and his group to provide an integrated environment where tools, user data, and public data resources can be easily accessed. The NGBW is designed to be an organic tool that evolves with the needs of the Biomedical research and education communities. The Next Generation Biology Workbench (NGBW) is now available for public use, in its production release.

Abbreviations: NGBW

Synonyms: Next Generation Biology Workbench, Swami

Resource Type: service resource

Funding: IBM Corporation ;
Microsoft Research ;
