Harvard Medical School ICCB-Longwood Screening Core Facility

RRID:SCR_009798

Type: Tool

Proper Citation

Harvard Medical School ICCB-Longwood Screening Core Facility (RRID:SCR_009798)

Resource Information

URL: <https://iccb.med.harvard.edu/>

Proper Citation: Harvard Medical School ICCB-Longwood Screening Core Facility (RRID:SCR_009798)

Description: Facility is small molecule and functional genomics high-throughput screening laboratory. It is built around modular work stations and most assays are performed in 384-well plates. There are over 500,000 small molecules available for screening at ICCB-Longwood and compound collection is continuously growing. Whole human and mouse genome siRNA libraries, arrayed sgRNA libraries, lncRNA siRNA libraries, as well as miRNA mimic and inhibitor libraries, are also available for screening. These libraries can be screened at the genome level or in focused subsets.

Abbreviations: ICCB-Longwood

Synonyms: HMS ICCB-Longwood Screening Facility, ICCB-Longwood Screening Facility at Harvard Medical School, Harvard Medical School ICCB-Longwood Screening Facility, ICCB-Longwood Screening Facility

Resource Type: access service resource, core facility, service resource

Keywords: Whole human, mouse genome, siRNA libraries, arrayed sgRNA libraries, lncRNA siRNA libraries, miRNA mimic and inhibitor libraries, small molecule, functional genomics, high-throughput screening,

Resource Name: Harvard Medical School ICCB-Longwood Screening Core Facility

Resource ID: SCR_009798
