**Proper Citation:** Howard RCMI Proteomics Facility (RRID:SCR\_009868)

**Description:** Core facility that provides the following services: Equipment access, Training on proteomics equipment. Mission: To use mass spectrometry for studies of infectious and chronic diseases and to promote and facilitate biomedical and translational research at Howard University Objectives: To provide modern analytical instrumentation, technical expertise and essential services for biomolecular analysis To provide a broader training experience for students and faculty in biomolecular analysis through methodology-centered seminars, workshops, mini-courses, and internships To foster new multidisciplinary research collaborations using modern Proteomics technology The RCMI Proteomics Core Facility runs several research projects and provides collaborative consolidation of instrumentation, technical expertise, and support personnel to enhance the impact and availability of Mass Spectrometry and other analytical techniques for biological and biomedical science community at Howard University

**Resource Type:** access service resource, service resource, core facility

**Keywords:** protein expression profiling, protein assay, mass spectrometry assay, two dimensional polyacrylamide gel electrophoresis

**Resource Name:** Howard RCMI Proteomics Facility
