Zebrafish Genome Project

RRID:SCR_013157

Type: Tool

Proper Citation

Zebrafish Genome Project (RRID:SCR_013157)

Resource Information

URL: http://www.sanger.ac.uk/Projects/D_rerio/

Proper Citation: Zebrafish Genome Project (RRID:SCR_013157)

Description: Database of zebrafish genome.

Synonyms: Danio rerio Sequencing Project

Resource Type: data or information resource, database

Keywords: Zebrafish, genome

Availability: Free, Freely available

Resource Name: Zebrafish Genome Project

Resource ID: SCR_013157

Alternate IDs: SCR_017503, nif-0000-31931

Alternate URLs: <https://www.sanger.ac.uk/science/data/zebrafish-genome-project>

Record Creation Time: 20220129T080314+0000

Record Last Update: 20260729T044323+0000

Ratings and Alerts

No rating or validation information has been found for Zebrafish Genome Project.

No alerts have been found for Zebrafish Genome Project.

Data and Source Information

Usage and Citation Metrics

We found 67 mentions in open access literature.

Listed below are recent publications. The full list is available at [nidm-terms](#) .

Kuo MW, et al. (2021) Yulink, predicted from evolutionary analysis, is involved in cardiac function. Journal of biomedical science, 28(1), 7.

Garland MA, et al. (2019) Glucocorticoid receptor-dependent induction of cripto-1 (one-eyed pinhead) inhibits zebrafish caudal fin regeneration. Toxicology reports, 6, 529.

Celauro E, et al. (2017) Functional analysis of the cfdp1 gene in zebrafish provides evidence for its crucial role in craniofacial development and osteogenesis. Experimental cell research, 361(2), 236.

Orosz F, et al. (2015) On the tubulin polymerization promoting proteins of zebrafish. Biochemical and biophysical research communications, 457(3), 267.

Caballero J, et al. (2014) Realistic artificial DNA sequences as negative controls for computational genomics. Nucleic acids research, 42(12), e99.

Zhou Y, et al. (2014) A vertebrate model for the study of lipid binding/transfer protein function: conservation of OSBP-related proteins between zebrafish and human. Biochemical and biophysical research communications, 446(3), 675.
