Description: Excel files available for download of ranking tables of NIH Funding to US Medical Schools in 2010, school and Principal Investigator (PI) rankings by Medical School Department, direct plus indirect costs (excluding both R & D contracts and American Recovery and Reinvestment Act (ARRA) Awards), etc. Categories under the Basic Science Department and Clinical Science Department are available as well as the rank of each School of Medicine from 2001-2010. The data in the 2010 Award files was obtained from the Research Portfolio Online Reporting Tool (RePORT) from the National Institutes of Health at <http://report.nih.gov/award/trends/AggregateData.cfm>. The Award Data correspond to the US Government fiscal year. Awards for 2010 correspond to those granted from 1 October 2009-30 September 2010. There is considerable variation on how universities credit awards and how the NIH deals with these variations.
