Optseq

RRID:SCR_014363

Type: Tool

Proper Citation

Optseq (RRID:SCR_014363)

Resource Information

URL: <http://surfer.nmr.mgh.harvard.edu/optseq/>

Proper Citation: Optseq (RRID:SCR_014363)

Description: Software tool for automatically scheduling events for rapid-presentation event-related (RPER) fMRI experiments (the schedule is the order and timing of events). Events in RPER are presented closely enough in time that their hemodynamic responses will overlap. This requires that the onset times of the events be jittered in order to remove the overlap from the estimate of the hemodynamic response. RPER is highly resistant to habituation, expectation, and set because the subject does not know when the next stimulus will appear or which stimulus type it will be.

Synonyms: Optseq2, Optseq - fMRI Event Scheduler

Resource Type: software application, data processing software, software resource, standalone software, data acquisition software

Keywords: fmri, scheduling event, event, rper, hemodynamic response, stimulus, stochastic design

Availability: Available for download

Resource Name: Optseq

Resource ID: SCR_014363

Alternate IDs: SCR_005976, nlx_151349

Alternate URLs: <http://www.nitrc.org/projects/optseq>

Record Creation Time: 20220129T080320+0000

Record Last Update: 20260729T044325+0000

Ratings and Alerts

No rating or validation information has been found for Optseq.

No alerts have been found for Optseq.
