## ARCHS4

RRID:SCR\_015683

Type: Tool

### Proper Citation

ARCHS4 (RRID:SCR\_015683)

### Resource Information

**URL:** <http://amp.pharm.mssm.edu/archs4/>

**Proper Citation:** ARCHS4 (RRID:SCR\_015683)

**Description:** ARCHS4 provides access to gene counts from HiSeq 2000 and HiSeq 2500 platforms for human and mouse experiments from GEO and SRA. The website enables downloading of the data in H5 format for programmatic access as well as a 3-dimensional view of the sample and gene spaces. Search features allow browsing of the data by meta data annotation, ability to submit your own up and down gene sets, and explore matching samples enriched for annotated gene sets. Selected sample sets can be downloaded into a tab separated text file through auto-generated R scripts for further analysis. Reads are aligned with Kallisto using a custom cloud computing platform. Human samples are aligned against the GRCh38 human reference genome, and mouse samples against the GRCm38 mouse reference genome.

**Resource Type:** software tool

**Resource Name:** ARCHS4

**Resource ID:** SCR\_015683

**Record Creation Time:** 20220129T080327+0000

**Record Last Update:** 20260808T190042+0000

### Ratings and Alerts

No rating or validation information has been found for ARCHS4.

No alerts have been found for ARCHS4.

### Data and Source Information

## Usage and Citation Metrics

We found 84 mentions in open access literature.

**Listed below are recent publications.** The full list is available at [nidm-terms](#) .
