Vermont University Genetics Network Bioinformatics Core Facility

RRID:SCR_017686

Type: Tool

Proper Citation

Vermont University Genetics Network Bioinformatics Core Facility (RRID:SCR_017686)

Resource Information

URL: <https://vgn.uvm.edu/bioinformatics/>

Proper Citation: Vermont University Genetics Network Bioinformatics Core Facility (RRID:SCR_017686)

Description: Core provides expertise in biostatistics, microarray data analysis, proteome informatics, next generation sequencing data analysis, functional analysis, database development and information technology, including data storage infrastructure and high performance computing. Working closely with VGN Proteomics Facility, offers investigators experimental design consultations, comprehensive data analysis, data management and publishing, and manuscript and grant support. Core personnel also engage in teaching and training activities for data analysis and compute resources necessary for VGN network investigators. Our goal is to provide network researchers with bioinformatics expertise.

Synonyms: Vermont Genetics Network Bioinformatics Core

Resource Type: core facility, service resource, access service resource

Keywords: Vermont, genetic, network, bioinformatic, core, data, analysis, microarray, proteome, next, generation, sequencing, functional, database, core

Availability: Open

Resource Name: Vermont University Genetics Network Bioinformatics Core Facility

Resource ID: SCR_017686

Alternate IDs: SCR_017707, ABRF_8

Record Creation Time: 20220129T080336+0000

Record Last Update: 20260810T040726+0000

Ratings and Alerts

No rating or validation information has been found for Vermont University Genetics Network Bioinformatics Core Facility.

No alerts have been found for Vermont University Genetics Network Bioinformatics Core Facility.
