Proper Citation: Phase Holographic Imaging: HoloMonitor live cell imaging and analysis system (RRID:SCR_019231)

Description: HoloMonitor live cell imaging and analysis system by Phase Holographic Imaging PHI AB. Contains small, digital live cell, quantitative phase imaging microscope HoloMonitor M4 designed to operate constantly inside incubator and HoloMonitor cell imaging software App Suite or Hstudio to continuously monitor and quantitatively analyze both individual cells and cell populations over time without any cellular labels or stains. Microscope can operate in cell incubator, hypoxia chamber or on lab bench.

Synonyms: , HoloMonitor microscope, HoloMonitor live cell imaging and analysis system, HoloMonitor?? M4, HoloMonitor M3

Resource Type: instrument resource

Keywords: Phase holographic imaging, microscope, instrument, equipment, phase imaging, incubator tolerant, hypoxia chamber tolerant, lab bench, digital holography, cell recording, live cell imaging, Phase Holographic Imaging PHI AB

Specification URL: https://raw.githubusercontent.com/SciCrunch/RRID-Instruments/refs/heads/main/PDF/SCR_019231.pdf

Resource Name: Phase Holographic Imaging: HoloMonitor live cell imaging and analysis system

Resource ID: SCR_019231
