Proper Citation: Tecan: SPARK Multimode Microplate Reader (RRID:SCR_021897)

Description: Multimode microplate reader as fully flexible detection platform with automation. Has four configurations to select from and then add or remove options. Optimised for genomics and proteomics, microbiology, cell based assays, and drug discovery areas. Performs measurements of fluorescent cell based assays. Has integrated, bright field cell imaging module. Enables label free cell counting, size distribution determination and trypan blue based cell viability analysis.

Synonyms: plate reader, Tecan Trading AG, instrument, SPARK, SPARK plate reader, SPARK system, USEDit, acquipment, Spark, Spark multimode reader, SPARK Multimode Microplate Reader

Resource Type: instrument resource
