VelvetOptimiser

RRID:SCR_024376

Type: Tool

Proper Citation

VelvetOptimiser (RRID:SCR_024376)

Resource Information

URL: <https://github.com/tseemann/VelvetOptimiser/>

Proper Citation: VelvetOptimiser (RRID:SCR_024376)

Description: Software tool to run as wrapper script for Velvet assembler and to assist with optimising the assembly. Used to search supplied hash value range for optimum, estimates expected coverage and then searches for optimum coverage cutoff. Estimates insert lengths for paired end libraries. Can optimise assemblies by default optimisation condition or by user supplied one. It outputs the results to subdirectory and records all its operations in logfile.

Synonyms: velvetoptimiser, perl-velvetoptimiser

Resource Type: software application, software resource

Keywords: wrapper script, Velvet assembler, optimising assembly, optimum search, search supplied hash value range, optimum coverage cutoff,

Availability: Free, Available for download, Freely available,

Resource Name: VelvetOptimiser

Resource ID: SCR_024376

Alternate IDs: OMICS_14601

Alternate URLs: <https://sources.debian.org/src/velvetoptimiser/>
<https://sources.debian.org/src/vsearch/>

License: GNU General Public License v2.0

Record Creation Time: 20230830T050217+0000

Record Last Update: 20260727T040824+0000

Ratings and Alerts

No rating or validation information has been found for VelvetOptimiser.

No alerts have been found for VelvetOptimiser.
