Proper Citation: Herbert Wertheim University of Florida Scripps Institute for Biomedical Innovation and Technology Genetic Perturbation Screening Core Facility (RRID:SCR_027255)

Description: Core provides guidance in planning and helps with executing gene expression modulation experiments. Currently uses technology based on shRNA for gene knock-down and cDNA libraries for overexpression studies. Core is equipped with genome-wide retroviral shRNA libraries for both human and mouse genomes, Mammalian Gene Collection (MGC) cDNA library, as well as smaller focused sets targeting selected gene families.
