SS/JrHsdMcwi

RRID:RGD_61499

Type: Organism

Proper Citation

RRID:RGD_61499

Organism Information

URL: <https://rgd.mcw.edu/rgdweb/report/strain/main.html?id=61499>

Proper Citation: RRID:RGD_61499

Description: Rattus norvegicus with name SS/JrHsdMcwi from RGD.

Species: Rattus norvegicus

Notes: Inbred from a congenic control group of Dahl S rats (SS/Ren) obtained from Dr. Theodore Kurtz (UCSF, CA) which were originally derived from the Harlan SS/Jr colony. Maintained at the Medical College of Wisconsin since 1991, this strain has undergone considerable marker-selected breeding to eliminate residual heterozygosity and genetic contamination. To confirm homozygosity, the strain was tested with 200 microsatellite markers (genome-wide scan at 20cM) all of which were homozygous for all regions tested (Cowley et al. 2000, Physiol. Genomics. 2:107-115). [RGD HRDP](#), [contact HRDP](#)

Catalog Number: 61499

Background: inbred

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Live Animals; Cryorecovery

Alternate IDs: 61499

Organism Name: SS/JrHsdMcwi

Record Creation Time: 20230509T191928+0000

Record Last Update: 20260725T194231+0000

Ratings and Alerts

No rating or validation information has been found for SS/JrHsdMcwi.

No alerts have been found for SS/JrHsdMcwi.
