Proper Citation: RRID:RGD_155631259

Description: Rattus norvegicus with name Taiep from RGD.

Species: Rattus norvegicus

Notes: These mutants were found in Sprague-Dawley rats at University of Puebla in 1989. A spontaneous neurological mutation was detected in a colony of Sprague Dawley rats. The animals developed a progressive neurological syndrome characterized by tremor (which appeared at the age of 1 month), ataxia (at 4 months), immobility episodes (after 5-6 months), audiogenic seizures and hindlimb paralysis (after 10 months). Cross breeding experiments indicate that this is an autosomal recessive mutation, The rat line was named taiep (tremor, ataxia, tonic immobility episodes, epilepsy and paralysis) rats.

Catalog Number: 155631259

Background: mutant

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Unknown

Alternate IDs: 155631259

Organism Name: Taiep

Record Creation Time: 20230509T191952+0000

Record Last Update: 20260808T193751+0000

Ratings and Alerts

No rating or validation information has been found for Taiep.
