Proper Citation: National Science Foundation Graduate Research Fellowship Program
(RRID:SCR_001487)

Description: The National Science Foundation's Graduate Research Fellowship Program (GRFP) helps ensure the vitality of the human resource base of science and engineering in the United States and reinforces its diversity. The program recognizes and supports outstanding graduate students in NSF-supported science, technology, engineering, and mathematics disciplines who are pursuing research-based master's and doctoral degrees in the U.S. and abroad. The NSF welcomes applications from all qualified students and strongly encourages under-represented populations, including women, under-represented racial and ethnic minorities, and persons with disabilities, to apply for this fellowship. Fellows share in the prestige and opportunities that become available when they are selected. Fellows benefit from a three-year annual stipend of \$30,000 along with a \$10,500 cost of education allowance for tuition and fees, a one-time \$1,000 international travel allowance and the freedom to conduct their own research at any accredited U.S., or foreign institution of graduate education they choose. NSF Fellows are anticipated to become knowledge experts who can contribute significantly to research, teaching, and innovations in science and engineering. So that the nation can build fully upon the strength and creativity of a diverse society, the Foundation welcomes applications from all qualified individuals. Women, under-represented minorities and people with disabilities are encouraged to apply. Those with disabilities are additionally accommodated by the Foundation to provide for the most successful graduate experience possible. Sponsors: This program is supported by the National Science Foundation (NSF).

Synonyms: NSF GRFP

Resource Type: graduate program resource, funding resource

Keywords: engineering, fellowship, graduate, human, mathematics, research, science, technology

Availability: Free, Freely available

Resource Name: National Science Foundation Graduate Research Fellowship Program

Resource ID: SCR_001487

Alternate IDs: nif-0000-10366

Record Creation Time: 20220129T080207+0000

Record Last Update: 20260801T190904+0000

Ratings and Alerts

No rating or validation information has been found for National Science Foundation Graduate Research Fellowship Program.

No alerts have been found for National Science Foundation Graduate Research Fellowship Program.
