Description: The International Society for Cerebral Blood Flow & Metabolism is a corporation operated exclusively for the purpose of promoting the advancement of education in the science of cerebral blood flow and metabolism throughout the world. The ISCBFM produces a quarterly newsletter, an official journal (Journal of Cerebral Blood Flow & Metabolism), have a yearly meeting, opportunities to host summer schools and a job board. ISCBFM members organize summer schools which are courses that have the aim to bring together young and experienced scientists for educational purposes. The biennial Brain Meetings also have a substantial part of the time allocated for educational purposes for young scientists interested in the field of cerebral blood flow and metabolism. Preference will be given to suggestions that are seen as a complement to scheduled courses in connection with the Brain Meetings and to courses that are given in between Brain Meetings.
