Proper Citation: WorkingWiki (RRID:SCR_003231)

Description: Free software extension for MediaWiki that makes a wiki into an environment for collaborating on publication-quality manuscripts and software projects. It allows wiki users to work together on anything that can be done by using UNIX commands to transform textual source code into output. Researchers can use it to collaborate on programs written in R, python, C, or any other language, and there are special features to support easy work on LaTeX documents. It develops the potential of the wiki medium to serve as a combination collaborative text editor, development environment, revision control system, and publishing platform. Its potential uses are open-ended - its processing is controlled by makefiles that are straightforward to customize - and its modular design is intended to allow parts of it to be adapted to other purposes.

Abbreviations: WorkingWiki

Resource Type: software resource

Keywords: authoring tool, archiving, data management, publication, authoring, text editor, development environment, revision control system, publishing platform

Availability: Free, Available for download, Freely available

Resource Name: WorkingWiki

Resource ID: SCR_003231

Alternate IDs: nlx_157270

Alternate URLs: <https://sourceforge.net/projects/workingwiki/>

Record Creation Time: 20220129T080217+0000

Record Last Update: 20260801T190206+0000
