## PrimerSeq

RRID:SCR\_003295

Type: Tool

### Proper Citation

PrimerSeq (RRID:SCR\_003295)

### Resource Information

**URL:** <http://primerseq.sourceforge.net/>

**Proper Citation:** PrimerSeq (RRID:SCR\_003295)

**Description:** Software that designs RT-PCR primers that evaluate alternative splicing events by incorporating RNA-Seq data. It is particularly advantageous for designing a large number of primers for validating alternative splicing events found in RNA-Seq data. It incorporates RNA-Seq data in the design process to weight exons by their read counts. Essentially, the RNA-Seq data allows primers to be placed using actually expressed transcripts. This could be for a particular cell line or experimental condition, rather than using annotations that incorporate transcripts that are not expressed for the data. Alternatively, you can design primers that are always on constitutive exons. PrimerSeq does not limit the use of gene annotations and can be used for a wide array of species.

**Abbreviations:** PrimerSeq

**Synonyms:** Primer Seek in RNA-Seq

**Resource Type:** software resource

**Defining Citation:** [PMID:24747190](#)

**Keywords:** primer, rna-seq, rt-pcr, windows, mac os x, bio.tools

**Availability:** Free, Available for download, Freely available

**Resource Name:** PrimerSeq

**Resource ID:** SCR\_003295

**Alternate IDs:** biotools:primerseq, OMICS\_02328

**Alternate URLs:** <https://bio.tools/primerseq>

**Record Creation Time:** 20220129T080218+0000

**Record Last Update:** 20260725T190538+0000

---

## Ratings and Alerts

No rating or validation information has been found for PrimerSeq.

No alerts have been found for PrimerSeq.
