Paleobiology Database

RRID:SCR_003798

Type: Tool

Proper Citation

Paleobiology Database (RRID:SCR_003798)

Resource Information

URL: <http://paleobiodb.org/>

Proper Citation: Paleobiology Database (RRID:SCR_003798)

Description: A non-governmental, non-profit public database for paleontological data providing researchers and the public with information about the entire fossil record. It has been organized and operated by a multi-disciplinary, multi-institutional, international group of paleobiological researchers. Its purpose is to provide global, collection-based occurrence and taxonomic data for organisms of all geological ages, as well data services to allow easy access to data for independent development of analytical tools, visualization software, and applications of all types. The Database's broader goal is to encourage and enable data-driven collaborative efforts that address large-scale paleobiological questions. Paleontological data files are accepted for upload. However, PaleoBioDB needs some basic data types to be included in order to perform an upload. The Application Programming Interface (API) gives scientists, students, and developers programmatic access to taxonomic, spatial, and temporal data contained within the database.

Abbreviations: PBDB

Synonyms: PaleoBioDB, PaleoDB

Resource Type: service resource, data repository, data or information resource, database, storage service resource

Keywords: paleontology, taxonomy, web service, visualization, FASEB list

Funding: NSF EAR 0949416;
NSF ICER 1540929;
NSF ICER 1540997;
NSF DUE 1504718;
NCEAS ;
Australian Research Council

Availability: The community can contribute to this resource

Resource Name: Paleobiology Database

Resource ID: SCR_003798
