Proper Citation: TRANSFoRm (RRID:SCR_003888)

Description: Project to develop a "rapid learning healthcare system" driven by advanced computational infrastructure that can improve both patient safety and the conduct and volume of clinical research in Europe. Three carefully chosen clinical "use cases" will drive, evaluate and validate the approach to the ICT (information and communications technology) challenges. The project will build on existing work at international level in clinical trial information models (BRIDG and PCROM), service-based approaches to semantic interoperability and data standards (ISO11179 and controlled vocabulary), data discovery, machine learning and electronic health records based on open standards (openEHR). TRANSFoRm will extend this work to interact with individual eHR systems as well as operate within the consultation itself providing both diagnostic support and support for the identification and follow up of subjects for research. The approach to system design will be modular and standards-based, providing services via a distributed architecture, and will be tightly linked with the user community. Four years of development and testing will end with a fifth year that will be dedicated to summative validation of the project deliverables in the Primary Care setting. In order to support patient safety in both clinical and research settings, significant ICT challenges need to be overcome in the areas of interoperability, common standards for data integration, data presentation, recording, scalability, and security., THIS RESOURCE IS NO LONGER IN SERVICE. Documented on September 16,2025.

Abbreviations: TRANSFoRm

Synonyms: Translational Research and Patient Safety In Europe

Resource Type: organization portal, portal, data or information resource, consortium

Keywords: clinical, interoperability, healthcare system, healthcare, electronic health record, clinical data, metadata standard, aggregator

Funding: European Union FP7 247787

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: TRANSFoRm

Resource ID: SCR_003888

Alternate IDs: nlx_158218

Record Creation Time: 20220129T080221+0000

Record Last Update: 20260810T040358+0000

Ratings and Alerts

No rating or validation information has been found for TRANSFoRm.

No alerts have been found for TRANSFoRm.
