Hackensack University Tissue Bank

RRID:SCR_004956

Type: Tool

Proper Citation

Hackensack University Tissue Bank (RRID:SCR_004956)

Resource Information

URL: http://www.jtcancercenter.org/clinical_trials/the_tissue_bank2/

Proper Citation: Hackensack University Tissue Bank (RRID:SCR_004956)

Description: The Tissue Bank stores tissue, blood, and bone marrow samples that have been taken from patients who have given their consent after they have undergone biopsies, surgery, or other procedures for cancer at the John Theurer Cancer Center. Our scientists use these samples to analyze and study multiple types of human cancer, with a goal toward learning more about how cancer develops, developing innovative new treatments, and determining how well a treatment is working. Our Tissue Bank is overseen by our program and medical director, Andre Goy, M.D., M.S., who is also deputy director of the Cancer Center and chief of the Division of Lymphoma; and our scientific director, K. Stephen Suh, Ph.D. Currently, 30 percent of our Tissue Bank team members work in our clinics, and 70 percent of our team works ??????????????behind the scenes,????? ?????????? conducting important scientific research without meeting patients.

Abbreviations: JTCC Tissue Bank

Synonyms: HUMC Tissue Bank, John Theurer Cancer Center Tissue Bank

Resource Type: biomaterial supply resource, material resource, tissue bank

Keywords: tissue, blood, bone marrow, cancer, tumor

Related Condition: Cancer

Availability: Private: Our scientists use these samples to analyze and study multiple types of human cancer, With a goal toward learning more about how cancer develops, Developing innovative new treatments, And determining how well a treatment is working.
