Proper Citation: IUPAC (RRID:SCR_005084)

Description: Recognized as the world authority on chemical nomenclature, terminology, standardized methods for measurement, atomic weights and many other critically evaluated data, this scientific, international, non-governmental and objective body addresses many global issues involving the chemical sciences. It serves to advance the worldwide aspects of the chemical sciences and to contribute to the application of chemistry in the service of Humankind. The Union sponsors major international meetings that range from specialized scientific symposia to CHEMRAWN meetings with societal impact. * Projects: IUPAC encourages the submission of projects in all areas of chemistry relevant to its work. * Publications: IUPAC publishes books, journals, electronic resources, and issues many reports in all areas of chemistry * Conferences: Each year IUPAC sponsors a large number of symposia that cover a wide range of specialized topics in chemistry. * Members and bodies: Chemists throughout the world are engaged on a voluntary basis in the scientific work of IUPAC.

Abbreviations: IUPAC

Synonyms: IUPAC: International Union of Pure and Applied Chemistry, International Union of Pure and Applied Chemistry, International Union of Pure Applied Chemistry

Resource Type: data or information resource, international standard specification, narrative resource, meeting resource, standard specification, knowledge environment, training resource

Keywords: chemistry, chemical nomenclature, terminology, standard, measurement, atomic weight, chemical, nomenclature, inorganic chemistry, organic chemistry, physical constant, publication, format, symbol, funding resource

Resource Name: IUPAC

Resource ID: SCR_005084

Alternate IDs: nlx_144095

Record Creation Time: 20220129T080228+0000

Record Last Update: 20260801T190254+0000

Ratings and Alerts

No rating or validation information has been found for IUPAC.

No alerts have been found for IUPAC.
