Proper Citation: Protein Ligand Database (RRID:SCR_006980)

Description: It is a publicly available web-based database that aims to provide further understanding of protein-ligand interactions. It's a resource containing biomolecular data, including binding energies, Tanimoto ligand similarity scores and protein sequence similarities of protein-ligand complexes. The PLD contains biomolecular data including calculated binding energies, Tanimoto ligand similarity scores and protein percentage sequence similarities. The database has potential for application as a tool in molecular design.

Abbreviations: PLD

Synonyms: Protein Ligand Database

Resource Type: data or information resource, database

Keywords: binding energy, biomolecular, interaction, ligand, protein, protein sequence
