Proper Citation: University of Kentucky Alzheimer's Disease Center (RRID:SCR_008767)

Description: Alzheimer's Disease Center that serves as the focal point for all Alzheimer's disease-related activities at the University of Kentucky and the Commonwealth of Kentucky providing an environment and core resources that catalyze innovative research, outreach, education, and clinical programs. Their ADC plans to build on its historic strengths and capitalize on emerging opportunities to provide an infrastructure that supports research designed to translate knowledge into therapeutic strategies for AD. They focus on two interrelated themes: Transitions and Translation. Their overall emphasis is to more effectively bridge the gap between basic research and clinical studies by facilitating translational efforts. They also carefully characterize transitions across the spectrum of cognitive impairment (normal/ preclinical AD/ MCI/ dementia), with focus on definition of early disease, and continue to support neuropathology as the bedrock of our center. The Alzheimer Disease Center's 2006-2011 grant award from the National Institute on Aging consists of five cores: * Administrative Core * Clinical Core * Biostatistics and Data Management Core * Neuropathology Core * Education & Information Transfer Core

Abbreviations: UK-ADC

Synonyms: UK Alzheimer's Disease Center, University of Kentucky Alzheimer's Disease Center, Alzheimer's Disease Center at the University of Kentucky

Resource Type: topical portal, data or information resource, disease-related portal, portal

Keywords: late adult human, brain, memory, clinic, alzheimer

Related Condition: Cognitive impairment, Alzheimer's disease, Aging, Mild cognitive impairment, Dementia

Funding: NIA

Resource Name: University of Kentucky Alzheimer's Disease Center

Resource ID: SCR_008767

Alternate IDs: nlx_144058
