**Proper Citation:** Genetik Ink (RRID:SCR\_012338)

**Description:** Genetik Ink creates art from your own DNA. From a simple cheek swab, we collect your DNA, process it, and create an art piece on canvas or aluminum. Once you order, a DNA collection kit will be sent in the mail to you. Once you have collected your DNA, send it back to our lab with the mailer sleeve we provided in the kit. We take care of the rest. Typically, you can expect to have your art piece within 1-2 weeks. Since we are in beta phase of our business, development could take longer. If you are not happy with your final product, we have a 100% money back guarantee
