Proper Citation: SigmaGel Software (RRID:SCR_014598)

Description: Gel analysis software which can be used on a PC with TWAIN-compatible scanners without specialty equipment. Users scan or load an image which can then be calibrated. SigmaGel allows users to make lane measurements, spot measurements, and molecular weight measurements. After data analysis was completed, users can print or copy and paste data and images.

Synonyms: SigmaGel

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: gel, gel analysis software, twain, data analysis

Availability: Available from SPSS Software

Resource Name: SigmaGel Software

Resource ID: SCR_014598

Record Creation Time: 20220129T080321+0000

Record Last Update: 20260821T194024+0000
