Proper Citation: SerialEM (RRID:SCR_017293)

Description: Software tool for automated EM data acquisition. Used for efficient tilt series acquisition and interface for image capture, display, and storage and for control of some aspects of microscope function.

Resource Type: data acquisition software, software application, data processing software, software resource

Defining Citation: [PMID:16182563](#)

Keywords: automated, data, acquisition, tilt, image, capture, display, storage, microscope

Funding: NCRR RR00592;
