Resource Information

URL: <http://vbspt.sourceforge.net/>

Proper Citation: vbSPT (RRID:SCR_017554)

Description: Software package for analysis of single particle diffusion trajectories, where diffusion constants switch randomly according to Markov process. Analytical tool to combine information from thousands of short single-molecule trajectories of intracellularly diffusing proteins. Has ability to learn number of diffusive states directly from data, in addition to model parameters such as transition rates and diffusion constants.

Synonyms: variational Bayes single particle tracking

Resource Type: data processing software, software application, data analysis software, software resource

Defining Citation: [PMID:23396281](#)

Keywords: Analysis, single, particle, diffusion, trajectory, Markov, short, molecule, intracellularly, protein, data, transition, state

Availability: Free, Available for download, Freely available

Resource Name: vbSPT

Resource ID: SCR_017554

Alternate URLs: <https://sourceforge.net/projects/vbspt/files/latest/download?source=files>

Record Creation Time: 20220129T080335+0000

Record Last Update: 20260731T043021+0000

Ratings and Alerts

No rating or validation information has been found for vbSPT.

No alerts have been found for vbSPT.
