Proper Citation: Thermo Fisher: Attofluor cell chamber (RRID:SCR_018875)

Description: Cell chamber with coverslip holder designed for viewing live cell specimens on upright or inverted microscopes. Surgical stainless steel chamber is autoclavable so cells can be grown directly on coverslips within unit. O-ring seal is designed to prevent samples from being contaminated by oil or leakage of media from coverslips. Chamber accepts 25 mm round coverslips and mounts in standard 35 mm diameter stage holder.

Resource Type: instrument resource

Keywords: Cell chamber, viewing live cell, microscope, stainless steel chamber, instrument, equipment
