Proper Citation: GeoMapApp (RRID:SCR_021919)

Description: Web tool as map based application for browsing, visualizing and analyzing diverse suite of curated global and regional geoscience data sets. These cover geophysics, geology, geochemistry, physical oceanography, climatology, and more. Runs with Java under Windows, Mac OS X, Linux and Unix/Solaris operating systems.

Resource Type: software resource, web application

Keywords: Marine Geoscience Data System, Lamont-Doherty Earth Observatory, geoscience data sets, browsing curated geoscience data, visualizing curated geoscience data, analyzing curated geoscience data

Availability: Free, Available for download, Freely available

Resource Name: GeoMapApp

Resource ID: SCR_021919

Record Creation Time: 20220421T050137+0000

Record Last Update: 20260731T043057+0000
