Proper Citation: University of Louisville Protein Expression and Purification Core Facility
(RRID:SCR_026516)

Description: Core offers recombinant protein expression and purification in E. coli systems to investigators for functional and structural studies. Services include vector construction, expression optimization, protein purification using FPLC, and isotopically labeled protein expression for NMR. Clients can choose from expression strain delivery, optimized protocols, and/or purified protein, with fast turnaround times and consultation throughout the process.
