Proper Citation: University of British Columbia BCCHR Histology Core Facility (RRID:SCR_026604)

Description: Core is a multi-user facility located on the 4th floor in the Translational Research Building (TRB) at A4-132. Histology facility offers services for processing tissue samples, automated equipment for tissue processing, paraffin embedding, micro-sectioning, and staining. Our technicians offer consultation, experimental design, and troubleshooting and work closely with researchers to get the most optimal tissue sections tailored to each project. The facility also provides training on the microtome and paraffin embedder to allow flexibility in workflow.

Synonyms: BCCHR Histology Core, , University of British Columbia BCCHR Histology Core

Resource Type: core facility, service resource, access service resource

Keywords: ABRF, histology, histology services, tissue processing, paraffin embedding, micro-sectioning, staining

Resource Name: University of British Columbia BCCHR Histology Core Facility

Resource ID: SCR_026604
